台灣生殖醫學會 2020 年會程序表 (中油大樓國光會議廳,地址:台北市松仁路 3 號)

8月22日 (星期六)

	- 75 1/ 1/	
	國光廳 (1F)	513 會議室 (5F)
13:00-13:10	Opening Remarks 黃富仁 理事長	:
13:10-14:25	論文發表-I Clinical Medicine-I	論文發表- III Embryology & IVF
	O07-O11	Laboratory O17-O21
14:40-15:40	論文發表-II Clinical Medicine-II	論文發表-IV Basic Science
	O12-O16	O22-O26
15:40-16:20	Coffee Break & Poster Session (國光廳走廊)	
16:20-17:00	專題演講 1:Luca Gianaroli	
	Update of evidence regarding to DNA de	tection in blastocoelic fluid: a new predictor
	of embryo ploidy and viable pregnancy	
18:00	Cocktail Reception (寒舍艾麗酒店	i)
18:30	Dinner Banquet (寒舍艾麗酒店)	

8月23日(星期日)

B:10-8:20
8:20-9:00專題演講 2: Glenn Schattman Fertility preservation for cancer patients and patients with cancer pre-disposition9:00-9:40專題演講 3: Catherine Racowsky IVF then, now and in the future9:40-10:10 Coffee Break10:10-11:50專題演講 4:宋永魁 台灣生殖醫學會三十而立燈燈相傳10:50-11:50Prize Paper Presentations (Clinical Medicine) O01-O03O01藍國忠 Validation of non-invasive preimplantation genetic screening for aneuploidy approach under routine clinical IVF laboratory workflowO02黃斑琦 Long-acting rFSH combined with dydrogesterone as a controlled ovarian stimulation protocol in polycystic ovary syndrome patients undergoing first IVF/ICSI cycle: a comparative study with GnRH antagonist protocol using long-acting rFSHO03何舒婷 Morphology grading scores are negatively associated with aneuploid levels in the biopsied blastocysts11:50-12:50 會員大會12:50-13:40 Lunch
Fertility preservation for cancer patients and patients with cancer pre-disposition 9:00-9:40 專題演講 3:Catherine Racowsky IVF then, now and in the future 9:40-10:10 Coffee Break 10:10-11:50 專題演講 4:宋永魁 台灣生殖醫學會三十而立燈燈相傳 10:50-11:50 Prize Paper Presentations (Clinical Medicine) O01-O03 O01 藍國忠 Validation of non-invasive preimplantation genetic screening for aneuploidy approach under routine clinical IVF laboratory workflow O02 黃斑琦 Long-acting rFSH combined with dydrogesterone as a controlled ovarian stimulation protocol in polycystic ovary syndrome patients undergoing first IVF/ICSI cycle: a comparative study with GnRH antagonist protocol using long-acting rFSH O03 何舒婷 Morphology grading scores are negatively associated with aneuploid levels in the biopsied blastocysts 11:50-12:50 會員大會 12:50-13:40 Lunch
9:00-9:40專題演講 3: Catherine Racowsky IVF then, now and in the future9:40-10:10 Coffee Break10:10-11:50專題演講 4:宋永魁 台灣生殖醫學會三十而立燈燈相傳10:50-11:50Prize Paper Presentations (Clinical Medicine) O01-O03O01 藍國忠 Validation of non-invasive preimplantation genetic screening for aneuploidy approach under routine clinical IVF laboratory workflowO02 黃斑琦 Long-acting rFSH combined with dydrogesterone as a controlled ovarian stimulation protocol in polycystic ovary syndrome patients undergoing first IVF/ICSI cycle: a comparative study with GnRH antagonist protocol using long-acting rFSHO03 何舒婷 Morphology grading scores are negatively associated with aneuploid levels in the biopsied blastocysts11:50-12:50 會員大會12:50-13:40 Lunch
IVF then, now and in the future 9:40-10:10 Coffee Break
9:40-10:10 Coffee Break 10:10-11:50 專題演講 4:宋永魁 台灣生殖醫學會三十而立燈燈相傳 10:50-11:50 Prize Paper Presentations (Clinical Medicine) O01-O03 O01 藍國忠 Validation of non-invasive preimplantation genetic screening for aneuploidy approach under routine clinical IVF laboratory workflow O02 黃斑琦 Long-acting rFSH combined with dydrogesterone as a controlled ovarian stimulation protocol in polycystic ovary syndrome patients undergoing first IVF/ICSI cycle: a comparative study with GnRH antagonist protocol using long-acting rFSH O03 何舒婷 Morphology grading scores are negatively associated with aneuploid levels in the biopsied blastocysts 11:50-12:50 會員大會 12:50-13:40 Lunch
10:10-11:50 專題演講 4:宋永魁 台灣生殖醫學會三十而立燈燈相傳 10:50-11:50 Prize Paper Presentations (Clinical Medicine) O01-O03 O01 藍國忠 Validation of non-invasive preimplantation genetic screening for aneuploidy approach under routine clinical IVF laboratory workflow O02 黃斑琦 Long-acting rFSH combined with dydrogesterone as a controlled ovarian stimulation protocol in polycystic ovary syndrome patients undergoing first IVF/ICSI cycle: a comparative study with GnRH antagonist protocol using long-acting rFSH O03 何舒婷 Morphology grading scores are negatively associated with aneuploid levels in the biopsied blastocysts 11:50-12:50
台灣生殖醫學會三十而立燈燈相傳
Prize Paper Presentations (Clinical Medicine) O01-O03
O01 藍國忠 Validation of non-invasive preimplantation genetic screening for aneuploidy approach under routine clinical IVF laboratory workflow O02 黃斑琦 Long-acting rFSH combined with dydrogesterone as a controlled ovarian stimulation protocol in polycystic ovary syndrome patients undergoing first IVF/ICSI cycle: a comparative study with GnRH antagonist protocol using long-acting rFSH O03 何舒婷 Morphology grading scores are negatively associated with aneuploid levels in the biopsied blastocysts 11:50-12:50
approach under routine clinical IVF laboratory workflow O02 黃斑琦 Long-acting rFSH combined with dydrogesterone as a controlled ovarian stimulation protocol in polycystic ovary syndrome patients undergoing first IVF/ICSI cycle: a comparative study with GnRH antagonist protocol using long-acting rFSH O03 何舒婷 Morphology grading scores are negatively associated with aneuploid levels in the biopsied blastocysts 11:50-12:50
12:50-13:40 Lunch
13:40-14:20 專題演講 5: 黃泓淵
Think big by think small: toward microfluidic assisted reproduction
14:20-15:20 Prize Paper Presentations (Basic Science) O04-O06
O04 周雅菁 Integrating genome-wide association study and expression quantitative trait locus identifies the genes associated with endometriosis O05 黃楚珺 Metformin as a novel promising option for fertility preservation during chemotherapy O06 李佳榮 Enhancement of human aged granulosa cells self-rescue by mitochondrial transfer via tunneling nanotubes
15:20-15:40 Coffee Break
15:40-16:10 論文發表-V Clinical Medicine-III O27-O29
16:10 Adjourn
